Special Release

11 September, 2018

### **POST UTME: LECTURE/WORK FREE DAYS**

The POST-UTME screening exercise for the 2018/2019 academic session has been scheduled for Friday, 14 and Saturday, 15 September, 2018.

In view of the large crowd expected as well as the involvement of staff (Main Campus/College of Medicine) in the exercise, Management has directed that the specified days be declared as lecture/work free days for the exercise.

Thank you.
