Special Release

09 August, 2024

**HEALTH ADVISORY 5 TO THE UNIVERSITY COMMUNITY
MIGRATION TO DIGITAL MODE OF OPERATIONS IN THE UHS:
UPDATE AND APPEAL**

The UHS started using the electronic mode of operations **for individual clients** beginning with students on Monday 06 May, 2024 and extended the use to all other clients on Monday 10 June, 2024. **It should be noted that the electronic mode of operations in UHS has come to stay in line with global best practices** and that the need to **edit** personal information **just once** for **every client** is one of its requirements. This is to provide **update and appeal** for **calmness and exercise of patience** for the editing. However, to reduce/remove the inconvenience going forward, UHS **plans to deploy personnel to the various Faculties/Centres etc.** after the ongoing students medical screening for the required editing.

All our esteemed clients are appreciated for choosing and supporting UHS to continue to render excellent service with compassion and you are welcome to please feel free to share suggestions.

Thank you.

G.O. Saliu, MANUPA, MNIM, MAUA
Registrar and Secretary to Council
