### **Senior Staff Housing Committee: Placement of Water Tanks on top of the Decking of Kitchens**

Following the report of the Technical Sub-Committee on the damage caused by water tanks placed on top of the decking of kitchens in blocks of flats, the Committee has decided as follows:

- (i) occupants of Block 3, Amina Way, should immediately remove their water tanks from the decking of their kitchens; and
- (ii) all occupants of blocks of Flats should remove their water tanks from the top of their kitchens within Six weeks from the date of this publication.

To ensure compliance with the safety regulations on placement of water tanks, the Technical Sub-Committee of the Senior Staff Housing Committee would soon embark on an inspection of all bungalows on campus.

Thank you.
